SpyGlass Explorer – Goal Setup Report

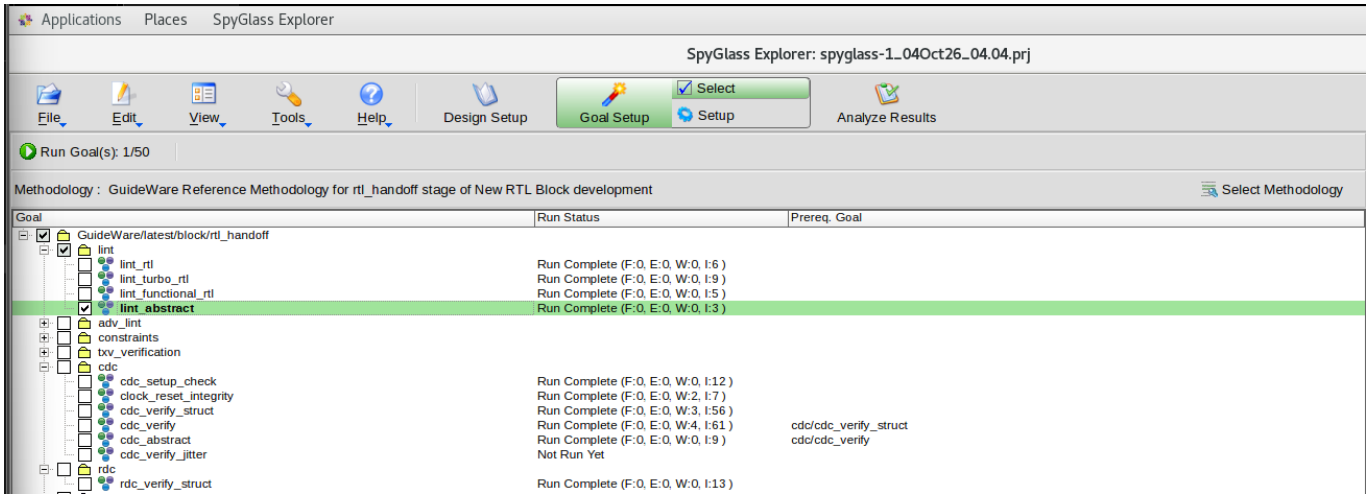

Figure 1. SpyGlass Explorer Goal Setup screen showing the GuideWare RTL handoff methodology, lint, CDC, and RDC goals and their run status.

1. SpyGlass Explorer Information

Item	Details
Project	spyglass-1_04Oct26_04.04.prj
Methodology	GuideWare Reference Methodology for rtl_handoff stage of New RTL Block development
Progress	Run Goal(s): 1/50

2. Goals and Run Status

Category	Goal	Run Status / Result
lint	lint_rtl	Run Complete (F:0, E:0, W:0, I:6)
lint	lint_turbo_rtl	Run Complete (F:0, E:0, W:0, I:9)
lint	lint_functional_rtl	Run Complete (F:0, E:0, W:0, I:5)
lint	lint_abstract	Run Complete (F:0, E:0, W:0, I:3)
cdc	cdc_setup_check	Run Complete (F:0, E:0, W:0, I:12)
cdc	clock_reset_integrity	Run Complete (F:0, E:0, W:2, I:7)
cdc	cdc_verify_struct	Run Complete (F:0, E:0, W:3, I:56)
cdc	cdc_verify	Run Complete (F:0, E:0, W:4, I:61)
cdc	cdc_abstract	Run Complete (F:0, E:0, W:0, I:9)
cdc	cdc_verify_jitter	Not Run Yet
rdc	rdc_verify_struct	Run Complete (F:0, E:0, W:0, I:13)

3. Notes from the Screenshot

• The lint goals shown in the screenshot are completed with zero fatal errors (F:0) and zero errors (E:0).

• The CDC checks are mostly completed; clock_reset_integrity, cdc_verify_struct, and cdc_verify show warnings (W:2, W:3, and W:4 respectively).

• cdc_verify_jitter is shown as Not Run Yet.

• The cdc_verify_struct goal is listed as a prerequisite for cdc_verify.

• The RDC section shows rdc_verify_struct completed with zero fatal errors, zero errors, and zero warnings.
